

HYDRAULIC ELEVATOR CONTROL VALVE

QUOTATION REQUEST FORM

Date _____

Required Ship Date _____

Out of Service

Company _____ Contact _____

Address _____ Phone _____ Ext. _____ Fax _____

City _____ St. _____ Zip _____ Cell Phone _____

Project Name _____ St. _____ Zip _____ Email _____

PROJECT DATA

* Capacity _____ lbs

Empty Car Weight _____ lbs

Piston Diameter _____ in

or Circumference _____ in

* Piston Wall Thickness _____ in

* Total Travel _____ ft _____ in

Car Speed Up _____ fpm

Down _____ fpm
(if different)

or

Static Pressure _____ psi
(empty car at bottom landing)

Flow Rate _____ gpm

* Max. Operating Pressure _____ psi
(full load car at top landing)

* Required for Constant Down Speed option

CONTROL VALVE

Quantity Required _____

UV-4R UV-5AT UV-7B

Serial No. _____
(If Replacement Valve)

Oil Line Connections Pump Jack Return

Grooved

Street Elbow
(NPT Ports Standard)

ACCESSORIES

Adjustable Load Weighing Switch Kit

Low Pressure Switch N.O. N.O./N.C.

Right Hand Jack Port Adapter (UV-5AT Only)

Valve Return Filter (installs on valve return port)

Female NPT Male NPT Grooved

OPTIONS

Include Coils

Voltage _____ V AC DC _____ Hz

Emergency Lowering Dual Voltage Coil

110 AC / 12 DC (not for use with UV-7B)

Constant Down Speed *

Explosion Proof

Self Closing Manual Lowering
